

# How much is your business worth?

We can carry out a basic company valuation for **£350+ VAT** as an additional service.

This can lead to further discussions & meetings regarding sale, partnership or succession.

Also, we can help clients who wish to buy businesses and whether value for money.

We consider both weighted average profits and assets as well as intangibles and goodwill, quality of customers and team members plus typical industry multiples.

## HOW IS THE OWNER PAID AND ARE THEY PAID A SALARY OR DIVIDENDS?

Buyers feel more security if the business is non-cash as to financial confidence.

**If this of interest,  
don't hesitate to get in touch.**
