

How to choose an accountant

lesser and co are good and fast, it is not possible to be good, fast and cheap and we do not wish to be all 3 which is not possible.

Fast

Good

Cheap

fastgood.cheap

1. Potential to develop a long term relationship.
2. A focus on tax saving and achieving great results.
3. Clear and transparent pricing. Do they provide the services you need?
4. What is their turnaround time on the work?
5. What is their timeframe in responding to questions?
6. Specific point of contact and continuity so not someone who is likely to move to another firm.
7. Do they provide general business advice?
8. Are they qualified / Chartered?
9. Do they have clients in your industry and the necessary expertise?
10. What systems and software do they use and is your data safe?
11. Data backed up off site.
12. Are they a family business or a large corporate?
13. Based locally to you or able to meet up when needed.
14. Does the accountant communicate in a way that you understand?
15. Regular training and up to date with changes in rules.
